

JOAQUÍN ALEJANDRO GANDINI

Esperanza, Santa Fe, Argentina
3496-449978 || joaquingandini22@gmail.com

PROFESSIONAL SUMMARY

Game Developer with experience in **Unity (C#)** and **Phaser 3 (JavaScript)**. Skilled in **gameplay programming, prototyping, UI implementation, and backend integration**.

Experience building **playable demos**, working in **agile teams**, and supporting **production workflows**. Knowledge of **Firebase, REST APIs, and database systems**.

TECHNICAL SKILLS

Game Dev: Unity, Phaser 3, Gameplay Programming, Prototyping, Debugging, UI/UX

Languages: C#, JavaScript, Python

Backend: Firebase, PostgreSQL, REST APIs, Node.js, Express, CRUD

Tools: Git, GitHub, Netlify, Electron

Other: Agile, Teamwork, Problem Solving

PROJECTS

Unity Exploration Prototype (2025)
Top-down game with **movement systems and gameplay mechanics**

Management App — Supabase / Electron (2025)
Desktop app with **real-time database + CRUD API integration**

Game Prototypes (2024–2025)
Multiple projects using **Unity & Phaser 3**, including **mobile mechanics and UI systems**

EDUCATION

Bachelor's in Video Game Production (In Progress)

National University of Rafaela
(2023–Present)

Chemical Technician — EETP N°455 (2014–2020)
Course: SME Management & Excel — UCOES

EXPERIENCE

Game Developer / Co-Producer — Y2Kids Rafaela | Apr 2025 – Dec 2025

- Developed gameplay systems and core mechanics in Unity
- Built and tested game prototypes
- Collaborated in multidisciplinary teams (design, art, programming)
- Improved performance through debugging and optimization
- Designed UI systems and onboarding flows
- Supported production planning and task management

“Hit the Corn!” — Lead Programmer / Co-Producer

- Developed playable demo for showcases and funding
- Participated in events such as EVA Buenos Aires
- Focused on polishing, localization, and UX improvements

ADDITIONAL EXPERIENCE

Musician (10+ years)

Teamwork, discipline, time management
